PROFILE SUMMARY

Motivated Computer Science student with strong foundation in programming, problem-solving, and software development. Seeking opportunities to apply technical skills and contribute to innovative projects.

STRENGTHS

- Ability to work individually and in a team
- Good communication and leadership skills
- Quick learner and hardworking
- Flexible and adaptable
- Inquisitive and interactive

TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **Database:** MYSQL
- **Web:** HTML, CSS
- **Core Concepts:** Data Structures & Algorithms , OOP
- **AI/ML:** Prompt Engineering
- **Soft Skills :** Communication Skills, Collaboration, Teamwork, Problem Solving, Time Management

EXPERIENCE / INTERNSHIP

ML Engineer Intern

Jul 2025 – Sept 2025

Branic Tech Solutions Pvt. Ltd., Hyderabad

- Developed and tested machine learning models in Python on 5,000+ image samples to improve real-time object detection accuracy.
- Built a **Wild Animal Detection System using YOLO** capable of detecting multiple animal classes from live video streams.
- Improved detection efficiency by optimizing image preprocessing and model inference workflows.

PROJECTS

Wild Animal Detection System (Python, YOLO)

- Evolved an AI-driven detection system using YOLO and OpenCV for real-time identification.
- Enforced efficient image processing and modular design for high detection accuracy.
- Handled the data preparation, trained the model, and made sure it could detect animals quickly and accurately in real-time.

Automated Quiz Engine with PDF Generation

- Refined a web-based quiz system with automated quiz generation, real-time evaluation, secure login, timer-based sessions, and PDF report export.
- Gained understanding of the end-to-end workflow without full implementation or deployment

Smart Campus Event Management System

- Initiated a full-stack web application for managing campus events, workshops, and student registrations using Spring Boot and MySQL.
- Implemented secure admin authentication, event CRUD operations, seat availability tracking, and responsive UI design to improve campus event organization and user experience.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, CGPA: 9.0 <i>Vel Tech Rangarajan Dr.Sagunthala R&D Institute of Science and Tehnology, Chennai</i>	2023–2027
Higher Secondary Education (MPC), CGPA: 8.9 <i>Sri Chaitanya Junior College, Rajamundry</i>	2021–2023
Secondary School Certificate (SSC), CGPA: 9.99 <i>Sasi E.M High School, Velivennu</i>	2020–2021

CERTIFICATIONS

ML Engineer Intern Certified Machine Learning Engineer with hands-on experience in building models.	2025
DBMS Course – Master the Fundamentals Concepts Completed an in-depth DBMS course covering database design, normalization, SQL queries, and concepts through practical modules and challenges.	2024

ACTIVITIES

- Led my during project presentations and hackathons.
- Attended personality development workshop.
- Improved communication, confidence, and interpersonal skills.
